List of tables

Table 1 - Homes4Life Promotional videos and their key objectives	3
Table 2 - Script of the first Homes4Life video	4

The present document is a short descriptive report which comes along the two Homes4Life promotional videos. Those two promotional videos will be developed during the project, one at the end of the first year (November 2019), one at the end of the second year (November 2020).

1 Objectives of the promotional videos

These videos aim to support the dissemination, communication and exploitation of the Homes4Life project results. The key objectives of both videos are summarized in the table below.

TABLE 1 - HOMES4LIFE PROMOTIONAL VIDEOS AND THEIR KEY OBJECTIVES

#	Due date	Key objectives
#1 Introductory video presenting the project vision and concept	M12	<ul style="list-style-type: none"> • Present the framework for the project • Raise awareness about the concept of age-friendliness applied to housing and the built environment • Introduce key messages from the Homes4Life Vision (see Deliverable 2.2) • Introduce the future Homes4Life certification scheme • Invite stakeholders to join the Home4Life Community of Interest (see Deliverable 5.1)
#2 Promotional video focusing on the certification scheme	M24	<ul style="list-style-type: none"> • Provide an outline of the Homes4Life certification scheme • Advertise the first Homes4Life certified buildings / pilots (see Work Package 4) • Invite future potential buyers to apply the Homes4Life certification

The above objectives will be echoed in the wider Dissemination and Communication plan that is presented in Deliverable 5.3, and the Exploitation and supporting investment strategy to be presented in Deliverable 5.2 (due at the end of the project, Month 24).

2 Promotional video #1

R2M is in charge of coordination of the design, production and dissemination of the video. All partners were asked to provide feedback on the style of the video they would prefer bearing in mind the project's budget.

2.1 Video format and development

Several communication agencies were contacted with a few guidelines about the objectives and budgetary constraints of the video project. The implementation of the video

was finally conducted by the Brussels-based design agency Babylonia¹, which was able to meet both layout style and budget requirements.

In order to meet both the appealing spirit required from promotional materials and the limited budget of the project, it was decided to develop a video in the form of a collage made from professional pictures, with a professional voice-over telling the story of the project. The voice-over was recorded (see Figure 1) by the professional sound studio, 4Audio².

2.2 Video content

A video script was developed internally by the project partners to meet the first promotional video's objectives. TECNALIA and AGE contributed to editing the script of the video which is presented below.

TABLE 2 - SCRIPT OF THE FIRST HOMES4LIFE VIDEO

		
<p>Are you choosing your place of living? or is your place of living picking you?</p>	<p>Our homes are the place where we build memories, where we invite family and friends, where we rest.</p>	<p>But are our homes prepared to support our changing needs and lifestyles as we move forward in life?</p>

¹ <https://www.babylonia-brussels.eu>

² <http://www.4audio.be>

		
<p>How our homes are adapting to those changes is the challenge taken up by the Homes4Life project, supported by the European Commission</p>	<p>With Homes4Life, we aim to support the development of places that adapt to our life choices and needs.</p>	<p>Our vision is that of a society where our environments enable us to stay active and participate in society, protect our health and facilitate the provision of care if needed.</p>
		
<p>Homes4Life will develop a new European certification scheme for age-friendly housing that will offer guidance to professionals and reassure inhabitants of the adequacy of their dwellings.</p>	<p>The scheme will help develop better living environments integrating digital solutions where this is beneficial</p>	<p>It will look at multiple relevant criteria such as accessibility, community living, security, comfort, privacy, ownership and more.</p>
		
<p>The Homes4Life certification scheme will apply to both new and existing buildings.</p>	<p>The certification is expected to have a direct impact on the market value of our properties.</p> <p>Tomorrow with Homes4Life, we will invest with confidence into a certified age-friendly home !</p>	<p>Join our Community of Interest to keep updated with our progress at homes4life.eu !</p>
	 <p><small>THIS PROJECT HAS RECEIVED FUNDING FROM THE HORIZON 2020 PROGRAMME UNDER GRANT AGREEMENT N°101019150</small></p>	

The Homes4Life logo, European emblem, and adequate Horizon 2020 funding programme support acknowledgements are integrated within the final result.

The final video is available at: <https://vimeo.com/374669170>

It is embedded into the Homes4Life website landing page and all partners will also contribute to disseminate it through their own channels.

2.3 Video dissemination

This first video will be used to support the implementation of the dissemination and communication plan presented in D5.3 (e.g. presentation in events, at exhibition booths, video embedded in online articles, etc.).

3 Promotional video #2

The second video will be developed at the end of the project. It will be used to support the exploitation of the Homes4Life outcomes, in particular promoting the certification scheme, in order to attract future potential buyers of the Homes4Life certification scheme. The present document will be updated at Month 24 to introduce this second Homes4Life video.
